

**TALK ABOUT TREES™** is sponsored by **Oregon Women in Timber**. The program was created in 1980 by California Women in Timber and adopted by Oregon Women in Timber in 1991.

**Oregon Women in Timber** is a volunteer, non-profit organization dedicated to forest resource education. Their goal in providing these programs are to create awareness and appreciation for the value of trees, and to encourage an understanding about the protection, management, and conservation of the renewable forest.

## **TALK ABOUT TREES™**

An award winning classroom science presentation for pre-school through eighth grade students.

---

“The students and I enjoyed and learned many things about trees. The facilitator did a great job of engaging.”

*Lane County Teacher*

---

Sponsored by

## OUR GOALS:

To encourage awareness and appreciation for the value of trees and forests in our daily lives; and to encourage an understanding about the protection, management and conservation of the renewable forest.

“Excellent presentation. Great hands-on materials. A large amount of critical information was presented in a very engaging manner. WOW!”

*Washington County Teacher*

## OUR PROGRAM:

This unique forest education program is aimed at pre-school through eighth grade students. The program gives an overview of forest ecology, management practices and forest product use. All classroom program are aligned with Next Generation Science Standards. Trained facilitators present this science-based program which focuses on the biological processes of trees and forests. Program topics include:

- tree identification
- photosynthesis
- benefits of trees
- forest management
- renewability
- structures of a tree
- conservation
- recycling

## THE RESULTS

99% favorable evaluations from teachers. The median rating from teachers is continually outstanding.

99% of students remember key program teachings the day of the program. Students evaluated six months later have an 80% retention rate.

On a yearly average, 140,000 students, teachers and parents have participated in a **TALK ABOUT TREES™** program.

“The papermaking demo fit in so well with our Woodland Tour last week and our science unit Living Off the Land. Excellent experience.”

*Yamhill County Teacher*
